

K50

Undercountercooler
Untertheckenkühler

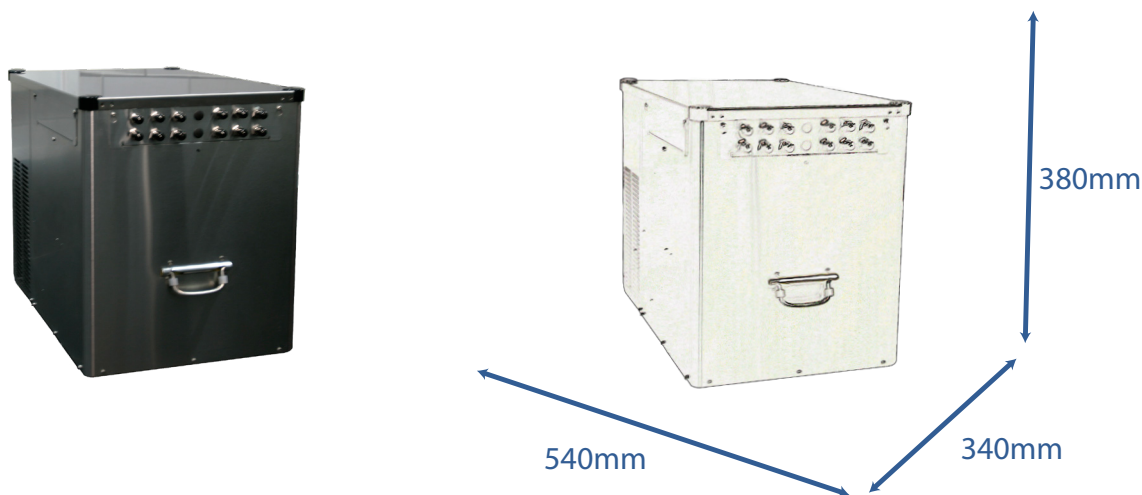

K50 from ADT-Europe

The new Cooler generation from the product range PERFECT PLUS

with innovative cooling technology, available with Combination Control or ice bank control. Choice of two Compressors possible-ACC Cubigel and Aspera (Embarco) the performance of both compressors identical. The agitator motor is newly equipped with cooling fins to keep the operating temperature low (not more than 50 °C). Thus, the life of the pump is improved. The agitator is equipped with a 6-pin connector. The cooling coils are designed for the beer area in 7mm with 1/2 „BSF connections. For the soft drink section, the diameter is 5mm.

Key Features:

- A powerful wet cooler
- Construction complete in stainless steel
- Efficient cooling technology including
- Equipped with various possible cooling coil packs / 3 sides rotatable

Specifications:

Power requirements:	230V / 50Hz / 1,8A / 430W
Cooling capacity:	325 kcal / h
Compressor:	8 ccm / 1/6 PS
Ready to draw to the end of ice build:	120 min.
Tap output á 0,2 l:	100 drinks / h
Peak performance:	200 drinks in 160min. 0.3-l
Water content:	18 liters
Ice bank:	6,2 Kg
Mass LxWxH:	540x340x380 mm
Product weight:	28 kg
Shipping Weight:	32 kg
Output:	Delivery height 5.5 m - 10,0 m Optional
Energy Efficiency:	speed-controlled pump motor possible
Coils:	Standard ½ „BSF connection, standard 6 x 7 mtr. PEM
Thermostat:	Ice bank - Digital Control
Refrigerant:	R 134a
Approvals:	Electrical Test CE approved
